

D-GREASE

PRODUCT CODE

22411

SIZES AVAILABLE

22411-05 **5 Gallon Container**

▯ Weighs 50 lbs.

22411-55 **55 Gallon Drum**

▯ Weighs 530 lbs.

D-GREASE is a mild but effective degreaser and is not harsh on any surface.

D-GREASE can be used in a low pressure sprayer to degrease frames and motors prior to a vehicle wash. Apply pure and after a short dwell time a dwell time rinse with high pressure.

D-GREASE can be used through a pump up sprayer to soften bugs on vehicle fronts.

D-GREASE is a very effective all-purpose cleaner and can be diluted in spray bottles to safely clean many surfaces.

D-GREASE is a **butyl multi-purpose** cold water degreaser. It is commonly used in house washing, awning cleaning, concrete floor scrubbing and many other applications. It will work exceptionally well as a pre-spray, through a pump-up sprayer, prior to steam cleaning, or hot water washing.

D-GREASE will remove carbon stain, bugs, grease and oil, when sprayed on the surface of a vehicle, and before pressure washing.

For use in cold water pressure washers, apply to the surface with a chemical injector per the soil conditions. As a pre-spray and on grease apply to the surface straight, when soil load demands. Can be diluted further for all purpose cleaning. Contains Sodium Metasilicate.

TECHNICAL INFORMATION

Color: Green pH Concentrate: 12.9

Odor: Butyl

DILUTION RATE:

Product to Water ratio

HOT WATER 1:100

COLD WATER 1:50

Effective in hard water up to 20 grains

5005 Belmar Blvd. Unit C-5 Farmingdale, NJ 07727
